AMENDMENT AND RESPONSE

Sir:

In complete and timely response to the Office Action of August, 2001, please
amend the above named application as follows:

IN THE CLAIMS

10. (Twice Amended) An electronic device comprising:

a stationary electromagnetic interference suppressing article for
suppressing electromagnetic interference due to external and/or internal
presence of electromagnetic waves, being comprised of soft magnetic powder
dispersed through an organic binding agent and also including a heat
conductive powder dispersed therethrough, for improving the thermal
conductivity of said electromagnetic interference suppressing body during use
thereof in association with said electronic device.
